GSA FPMR (41 CFR) 101-11.6
UNITED STATES GOVERNMENT
Memorandum

Commission Exhibit No. 2111
U. S. Secret Service

TO : Chief
Attn: Inspector Kelley
FROM : SAID Sorrels, Dallas
SUBJECT: Identification of Photograph

DATE: February 13, 1964

Reference is made to Chief's O/M of 1-14-64 to SA John Joe Howlats to which was attached a photograph of the concrete slab where a bullet was thought to have hit, which photograph was taken by the Bureau of Identification, Dallas Police Department. You instructed that a report be submitted setting forth in detail exactly where this slab is located and the circumstances which prompted the police to take the photograph.

This concrete slab and manhole cover is located on the south side of Elm Street almost opposite to where the President's car was located when the last shot that killed President Kennedy was fired. Someone reported that a bullet had ricocheted off the concrete slab in the corner next to the word "sewer" stamped on the manhole cover and for this reason the photograph was taken. However, it was never verified that any bullet hit it.

The spot was personally examined by me and I did not see any mark that in my opinion could have been caused by a bullet and I did not see how it could have been possible for any fragment of any of the three bullets that were fired to have hit this concrete slab.

The photograph is returned as requested.
